

Entered at the Postoffice at Accomac, Va., as second-class matter.

For 52nd Congress—First District:
WILLIAM A. JONES,
of Richmond county.

Election, Tuesday, November 4.

Hon. T. H. Bayly Browne, often rises as the friend of the poor, but acts that speak louder than words furnish very convincing proofs to the contrary and no one need be deceived unless he is willing to be duped by Mr. Browne. He voted for the McKinley tariff bill, and that its object was to increase taxation and concentrate its burdens upon the producing and laboring classes, the following facts are submitted as proofs thereof:

Stockings, which heretofore sold for 25 cents per pair are now selling at 50 cents per pair, but the silk stockings of the rich which heretofore sold for \$1 have not advanced in price; kid gloves that heretofore sold for 90 cents are now worth \$1.25, but the article heretofore worth \$2.50, which the rich man wears, has not advanced in price; linen handkerchiefs heretofore worth \$3.50 per dozen are now worth \$4.50, but the higher grades have not advanced in price; pearl buttons have advanced from 12 cents to 20 cents per dozen; sealskin plush coats heretofore sold for \$20 are now advanced to \$30, but the \$500 article is worth the same as heretofore; the lowest grades of woolen clothing have materially increased in price, but the highest grade has not been materially affected—the tariff tax upon the former being 125 per cent., on the latter 26 per cent.; cheap blankets have increased in price, but the finest blankets remain stationary—the tariff tax on the former being 106 per cent., on the latter 72 per cent.—in fact all articles of necessity, such as the poor man buys have increased in price, but the rich man buys the articles he uses as heretofore.

Mr. Browne the friend of the poor! Further comment unnecessary, other than that the poor man possesses stupidity incalculable, who continues to vote against his own interests, by voting for Mr. Browne.

At a convention of boot and shoe manufacturers recently held in New York, it was resolved that, "it is necessary to advance the prices of our product in order to meet the increased cost of material and maintain the present standard of our goods." Late advices from Philadelphia, are to the effect that carpets within a week have advanced from 10 to 25 cents a yard, and D. W. Glass & Co., Baltimore, state, that they have been compelled to advance the common German slate pencil nearly 90 per cent., letter copying-books 25 per cent., and many stationery articles nearly 100 per cent; and it goes under the McKinley tariff bill, for which Mr. Browne voted. Prices on every article in ordinary use are advancing, and the cost of living is going higher and higher. The poor man of whatever color, condition or creed, that does not see what duty requires and who does not vote accordingly on the 4th November, is indeed an object of pity, if not of scorn.

The design of the Force bill, as outlined by the Philadelphia Press, one of the leading Republican organs, is given below. The editor of that paper actually concedes, that the salvation of the South depends upon the defeat of that bill and should any Southern man hesitate to vote against any candidate who favors it? The undeniable record which Mr. Browne has already made for himself in regard to the bill leaves no doubt as to the course he will pursue in the future. The Press says:

"It is a very well to rejoice in the prosperity and growth of the new Northwest, for there sound views upon the tariff generally prevail, and their progress does not interfere with ourselves, but the advance of the South is to a great extent at our expense. Her cotton mills will compete with those of New England and the middle States, and her furnaces are supplying pig iron at rates which makes it impossible to run those of Pennsylvania. If the Democrats had never been allowed to regain control of the State Governments of the South, Northern capital would never have embarked in the development of Southern coal and iron; and the surest and speediest way to put a stop to this competition from men who are political enemies, as well as our commercial rivals, is to carry

through and enforce measures like the Lodge election law. They would like it, and some of them will be fools enough to make trouble about it; and if we can once more get them into the condition they were before 1876, we won't hear any more about cheap iron and cheap cotton goods from the South. They will have other things to think about.—Philadelphia Press.

The iniquitous McKinley tariff bill, which Mr. Browne, assisted in passing for the benefit of the rich manufacturers of the North, and to the injury of every man, woman and child, in the district he claims to represent, is commented upon by the New York Herald in the following manner, and we mistake the temper of our people, if they do not say by their votes on the 4th of November, that a new Congressman is "wanted" from the 1st district. The Herald says:

"The new tariff authorizes a vast amount of taxation which could have been devoted for no other purpose than to make the rich richer and the poor poorer. Whatever the laborer wears or whatever his family eats; the medicine required for sickness; the nourishment his baby needs; the school books his children must have to fit them for American citizenship—these are all heavily taxed. On the other hand, the luxuries enjoyed by the wealthy, and the material from which wealth is obtained, are all either made free, or the tax on them is reduced from former standards. We shall want new Congressmen by and by, and perhaps we shall have sense enough to elect men who care more for the people than they do for party."

Colonel Wm. T. Sutherland has accepted the presidency of the Virginia board of agriculture.

General William W. Belknap, who resigned as Secretary of War under Grant for selling post-trader ships, was found dead in his room in Washington, Monday.

The police census, completed Tuesday afternoon, gives New York City a population of 1,719,715. This is an increase of 197,214 over Mr. Porter's figures.

Complete returns of assessments of property values in all counties in the State have been received at State auditor's office. The aggregate of these show an increase of \$24,237,832 over the assessment of 1885.

Justice Samuel F. Miller, of the Supreme court of the United States, stricken with paralysis some days ago, died in Washington, last Monday. His record, in other respects honorable, was tarnished by his vote as a member of the Electoral Board, which resulted in seating President Hayes.

Hon. Wm. A. Jones, in his speech at Accomac C. H., declared that he stood squarely on the Farmers' Alliance platform. Hon. T. H. Bayly Browne has not been heard from on that question and is likely to continue mum until the day of election on that subject. Of course Mr. Browne cannot enforce the Farmers' Alliance, when one of the planks in their platform is severe in denunciation of the iniquitous tariff measures for which Mr. Browne voted. He would add insult to injury, after having voted to double the tax on many articles farmers use, to ask them to vote for him. A commission of lunacy is suggested as the proper thing, for a farmer who could be guilty of such stupidity as to vote for Mr. Browne.

Miss Winnie Davis's Engagement. A Dispatch from Syracuse, N. Y., says: "All the curiosity regarding the reported broken engagement of Miss Winnie Davis, the daughter of the Confederacy, and Alfred Wilkinson of Syracuse, was allayed Monday, when the young gentleman announced in person that it was true. It was first reported from New Orleans, but the Wilkinson family would neither affirm nor deny the report. Various reasons were given for the rupture, including Mr. Wilkinson's financial standing, Miss Davis's health and the opposition of prominent Southern families, who are intimates of the Davis family. Mr. Wilkinson says that the reports sent out were so unjust and unfair to both himself and Miss Davis that he would say that the engagement was broken, and that no marriage would take place. Miss Davis's health has been poor for some time, and it was for the purpose of gaining strength that she went abroad," Mr. Wilkinson said. "She returned in only a slightly improved condition, and but a few weeks ago she expressed the wish of both herself and her estimable mother that the engagement cease." Further than that, while there is no doubt that the blow is a very severe one for him, he is acting manfully."

The Census of Population. If the census returns so far published are taken as the basis for a calculation of the total population of the United States, it will appear that our population in 1890 is but 62,000,000, an increase of 11,876,889, or 23.68 per cent., in the decade since 1880. Deducting from the 11,876,889 the 5,242,530 immigrants landed on our coasts since 1890, we find the natural increase was but 6,634,359, or about 13 1/2

per cent. This rate of natural increase is so small when compared with the rates of previous decades as to confirm the popular estimate of the defectiveness of the census-taking of 1890. The rates of increase in previous censuses were as follows: 1860, 33.32 per cent.; 1870, 35.06 per cent.; 1880, 31.43 per cent.; 1890, 32.06 per cent.; 1890, 28.02 per cent.; 1890, 25.60 per cent.; 1890, 24.46 per cent.; 1890, 18.90 per cent.; 1890, 22.78 per cent.—Baltimore Sun.

It won't do to send Eli.

Send him where?

To the city to buy goods.

Why?

Because he buys so many. Has he returned? No. Where is he? He must be buying goods as that is what we sent him for, and he doesn't seem to be limited. They began to arrive in about four days from his departure, and still they come. Eli must be a ladies' man, from the quantity of

Dress Goods

he has sent, which consist of

CALICOES, ZEPHYRS, GINGHAMS, OUTING, WORSTEDS, SILKS, VELVETS, &c. &c.

Why has he shipped so many goods in this line? Because he remembers that a demand we had for three weeks to get through pricing and to get our goods on the shelves. He has not only bought Dress Goods, but everything you can imagine from a Canby Needle to a Stove.

FIRE PROOF SAFE, BRECKENRIDGE GUN, CARRIAGE, &c.

—Our line of—

Shoes, Boots, Kerseys, Flannels and Groceries

is full and complete. In regards to our prices, it is not necessary to say anything, as we don't consider we have any competition. About all we hear in regards to prices is, our customers often exclaim, how is it I can buy goods cheaper here than I can in the city? We do not come before you to ask you to buy a penny's worth, as that is not our mission here, but simply to ask you to call and examine our goods before purchasing elsewhere. If you will come once we will not have any trouble about you continuing, as our goods and prices will assure your second coming. Thanking you kindly for all past favors, we solicit a continuance of the same.

Yours respectfully,
A. H. G. MEARS,
Wachapreague, Va.

LOOK! LOOK!!

Here we are again. Just from the city with the latest and best line of goods ever brought to this market. If you want a nice Dress and Trimmings we have it. If you want a nice hand-made Shoe we have it. If you want a good school Shoe we have it. If you want a cheap or a nice Carpet we have it. If you want a cheap or a nice Suit of Furniture we have it. If you want a comfortable Rocking Chair we have it. If you need any piece of Furniture we have it. If we should not happen to have it we will get it for you. If you want a nice set of China we have it. If you want a nice Wash Stand set we have it. And the greatest thing of a great many, is a large line of Ladies' Misses' and Children's Cloaks, which we are selling at not more than two thirds of their value. Call at once while you have the chance to get just what you want. We use only the finest goods. We are bound to say that we can show you the cheapest line of goods we ever showed. Come and see for yourselves. We will give the highest market prices for all produce.
